

URINCARE™ Quick Decision Guide

Matching the right system to every patient's unique needs

URINCARE CUP™

URINCARE FLO™

Patient Need	Recommended System
Sensitive skin / no adhesives	URINCARE CUP™
Active lifestyle	URINCARE FLO™
Nighttime use	URINCARE FLO™
Retracted or buried penis	URINCARE FLO™
Existing skin breakdown from condom catheters	URINCARE CUP™
Side or stomach sleeper	URINCARE FLO™
Wants longest wear time	URINCARE FLO™

URINCARE CUP™

- * No adhesives - ideal for sensitive or fragile skin
- * Best for Veterans with existing skin breakdown
- * Reduces skin irritation and pressure injuries

URINCARE FLO™

- * Extended wear - ideal for nighttime and active use
- * Works with retracted or buried anatomy
- * Compatible with all sleep positions

Both systems restore independence, dignity, and comfort to our Veterans while reducing complications and saving the VA millions annually.
